HiMAG™ LOW FREQUENCY ATTENUATION
PART#: AB340-0110  THICKNESS: .010”  1 MHz to 3 GHz μ’ = 32

Modus Advanced, Inc. Low Frequency Absorber is a magnetically loaded material having high loss at sub-microwave frequencies. Low Frequency Absorbers are designed with shaped magnetic particles which exhibit high permeability. The Low Frequency Absorber product line is the thinnest of the HiMag™ materials.

APPLICATIONS
- Traveling or Creeping surface wave absorption
- Resonant Cavity Attenuation
- EM Reduction
- Mounted to an IC on a PCB
- Mounted directly on a micro-strip
- High Frequency Interference
- Inside a shielding can

FEATURES AND BENEFITS
- Tough material can survive outdoor exposure
- Very thin for compact locations
- Flexible elastomeric material will not crack
- Support broad frequency range
- RoHS Compliant
- Halogen Free

AVAILABILITY
- Sheets, Die Cut, Kiss Cut Pads
- Sheet Size: 24” x 24”

ATTENUATION VS. FREQUENCY

ELECTRICAL PERFORMANCE:
The performance plot shown on the left illustrates the reflection loss performance of this material. Reflection loss is measured on a NRL arch. For more information on the NRL arch test set up, please contact a Modus™ technical representative. Additional electrical test data may be available upon request.

MODEUS ADVANCED TAKES YOU FROM IDEA TO IGNITION

1. IDEA
   You design the perfect part

2. ENGINEERING
   You specify the best material

3. SOLUTION
   We strategically plan

4. IGNITION
   We produce and deliver

We are Modus! With multiple locations in North America and China, Modus Advanced, Inc. is a diversified custom manufacturer which converts EMI Shielding, Environmental Gasket Materials, Microwave Absorbers, Acoustic Materials, Thermal Interface Materials and other high performance materials into finished parts. Modus utilizes its 40 years as an established provider of high quality, reliable products to create precisely what customers specify. Innovative processes; custom fabrication utilizing performance materials; an on time delivery record of more than 99% means Modus is well positioned to help your company succeed.

This information is based on data believed to be reliable, but Modus makes no warranties, expressed or implied, as to its accuracy and assumes no liability arising out of its use. The data listed falls within the normal range of product properties, but should not be used to establish specification limits or used alone as the basis of design.
